

HETTY preschool is fortunate to have a qualified speech and language facilitator working with in the setting. Who has been trained by ELKLAN. We are now proud to say we have achieved the “Communication Friendly Setting” status.

This is a real boost to us at HETTY as it means we will be an example setting for other nurseries in the area.

Because of this we introduced a scheme where the children will be encouraged to expand on their language through the introduction of new weekly focus words, for example,

Teddy

Big teddy

Big brown teddy

Big brown fluffy teddy.

This skill, learnt young, can help children become better communicators and better story tellers as they get older.

We really value the partnership we have with parents at HETTY and so would love for you to be involved. If you or your child have any words that you would like to suggest (for example new words that your child has learnt after a trip to a museum, seaside or the zoo) then please let us know.

Each week, the website will be updated with our new words and they will also be displayed on the front door at HETTY.

Thank you

Tracyann Worthington
(Speech and Language Facilitator)
