

26/09/19

HETTY preschool is fortunate to have qualified speech and language facilitators working with in the setting. They have been trained by ELKLAN to train all the staff with-in the setting. As a result of all the training and skills the staff have obtained, HETTY Preschool was the first preschool to gain accreditation from ELKLAN for “Communication Friendly Setting”. This is a real boost to us at HETTY as it means we will be an example setting for other nurseries in the area.

There for because of this we introduced a scheme where the children will be encouraged to expand on their language through the introduction of new weekly focus words.

We really value the partnership we have with parents at HETTY and so would love for you to be involved. If you or your child have any words that you would like to suggest (for example new words that your child has learnt after a trip to a museum, seaside or the zoo) then please let us know.

Each week the website will be updated with our new words and they will also be displayed on the front door at HETTY.

Thank you
Tracyann Worthington
